

MACRA THE CYCLAMENS' TRAIL

Start	Macra, Municipio
Climb	270 m
Max. altitude	1.067 m
Walking time	2h30'

An easy tour between the hamlets of Macra, starting by a climb along the river in the broad-leaves tree woods; once passed Caricatori we'll walk among pines, beeches in the shadowy corners, and birches. These ones, pioneering plants, are regaining place after the terrible fire of the 90's. Below Camoglieres we can find some yew trees, very uncommon on the territory. Very interesting is the alpine architecture of the villages of Camoglieres and Caricatori, and the dance of death painted on the S.Pietro chapel.
