

CANOSIO ROCCA CORNA

Start	Canosio, Colle San Giovanni
Climb	725 m
Max. altitude	2.374 m
Walking time	3h30'

Groups of cherry-trees welcome the hikers in Colle San Giovanni, from where we'll head up on the gravel road until the Colletto di Canosio. The trail climbs among the larches following the ridge and crossing some rocky bends, to be avoided with snow on the terrain, before reaching the summit. Alternatively, a beautiful hike in the shadowy side of the mountain, looking to Prazzo, leads to Grange Celletta, in a magnificent silver fir wood. In Canosio the architectures of the Ubac and Casa Corte hamlets have not to be missed.
